

Nisrine AMESJOUN

Junior Cybersecurity Engineer | SOC & IT  
Audit Expertise

✉ nisrineamesjoun@gmail.com

🏠 20400, Casablanca

📅 22 years old

📞 0632579374

Rigorous Cybersecurity professional with a focus on intrusion detection and data-driven analysis. Seeking to apply deep technical expertise to IT Audit to proactively identify system risks, streamline compliance, and fortify organizational security frameworks.

## PROFESSIONAL EXPERIENCE

Cybersecurity Analyst

From February 2026 to August 2026 (6 months)

**Ineos Cyberdefense** Casablanca, Morocco

Designed an AI-based Intrusion Detection System (IDS) for corporate network protection.

- **Technologies:** Python (Scikit-learn, PyTorch/TensorFlow), Graph Neural Networks (GNN), Docker, SOAR, XAI.

Security Operations Center (SOC) Analyst

From June 2025 to September 2025 (3 months)

**ArcaShield - Corporate Software Group** Casablanca

Set up a threat intelligence cell for the detection and contextualized analysis of emerging and critical threats.

- **Technologies:** n8n, Supabase, Raspberry Pi, MFA, SMTP.

Full Stack Developer

From April 2023 to July 2023 (3 months)

**MED YOU IN** Meknès

Designed and deployed the DabaPermis platform: built reactive interfaces and secure APIs with access controls and data flow auditing.

- **Technologies:** Laravel, Livewire, React, Postman, Node.js, Swagger/OpenAPI.

Database Administrator

From June 2022 to September 2022 (3 months)

**AREF** Guelmim, Morocco

Digitized and secured administrative processes by developing an archive management application.

- **Technologies:** PHP (Laravel/Livewire), MySQL/PostgreSQL, HTML5/CSS3 (Bootstrap), Git.

## EDUCATION

State Engineer's Degree in IT Security & Digital Trust

Since September 2023

**École Nationale Supérieure de l'Intelligence Artificielle et Sciences des Données (ENSIASD)** Taroudannt

University Technology Diploma (DUT) in Computer Engineering

From September 2021 to June 2023

**École Supérieure de Technologie (ESTM)** Meknès

International Baccalaureate - Physics (French Option)

From September 2020 to June 2021

**Lycée El Mansour Eddahbi** Casablanca

## TECHNICAL SKILLS

### Governance & Audit

ISO 27001, NIST, PCI-DSS, CIS Controls, GDPR, MASVS

### Development

Python, Java, Laravel, C++, React, PowerShell/Bash Scripting

### DevSecOps

Secure CI/CD, Docker, Ansible, Terraform, Python, Bash, PowerShell, Infrastructure as Code

### Cloud Security

AWS/Azure Security, Cloud IAM, Hardening, Monitoring & Surveillance

### SIEM & SOC

Elasticsearch, Logstash, Kibana, Wazuh, Splunk, Threat Intelligence, Incident Response

### Network & Infrastructure Security

IDS/IPS, VPN, SSL/TLS, IPsec, Firewalls, Zero Trust, Network Segmentation

### Offensive & Defensive Security

Nmap, Metasploit, Burp Suite, Nessus, OpenVAS, Penetration Testing, Malware Analysis

PROJECTS

Open-Source SIEM Solution

Full configuration of an ELK stack for event correlation, with automated alerting for critical incidents.

- Technologies: Elasticsearch, Logstash, Kibana, Wazuh.

Network Security Audit Platform

Developed an automated vulnerability scanning tool with automated penetration testing and report generation.

- Technologies: Python, Nmap, OpenVAS, Docker.

LLM Vulnerability Analysis

Developed prompt injection testing techniques, analyzed attack vectors, and implemented countermeasures.

- Technologies: Gpt4ALL, Hugging Face, Llama, GPT, Mistral.
